STEP 1 - Measuring your foot length
Tape the piece of paper to the floor against a flat wall and stand on it, bearing weight onto your foot
Make a mark on the paper behind your heel, and one in front of your longest toe - this could be your first, second, or third toe.
Measure the longest distance from your heel and toe in centimetres or inches for both feet and note the measurement of the longer foot
t for larger feet to estimate your correct shoe size.
STEP 2 - Measuring your foot width
Now, make a mark next to the joints where your first and fifth toe join your foot, for most people this is usually the widest part of the foot. Again do it for both

STEP 3 - Select the right size
If your measurement is between two sizes, always move up to the larger size
Be sure to measure both feet. Many people have feet of different sizes. Fit to the larger of the two. Fit yourself at a similar time as when you will be wearing
the footwear

STEP 1 - Measuring your foot length
號
Measure the longest diser behind your heel, and one in front of your longest toe - this could be your first, second, or third toe.
Finally refer to our shoe size conversion chart for lorger feet to estimate your correct shoe size note the measurement of the longer foot.
STEP 2 - Measur
STEP 2 - Measuring your foot width
Noe, make take mark next to the joints where your first and fifth toe join your foot, for most people this is usually the widest part of the foot. Again do it for both he widest measurement.
STEP 3 - Select the right size
If your measurement is between two sizes, always move up to the larger size.
Be sure to measure both feet. Many people have feet of different sizes. Fit to the larger of the two. Fit yourself at a similar time as when you will be wearing the footwear.
For daily footwear, fit yourself when you've been on your feet all day because your feet have expanded.
